## **DETAILED ACTION**

### **EXAMINER'S AMENDMENT**

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

Cancel claims 7-16 (claims 7-16 are drawn to a non-elected invention).

#### ***Allowable Subject Matter***

2. Claims 1-6 are allowed.

The following is an examiner's statement of reasons for allowance:

With respect to claims 1-6, the prior art alone or in combination does not teach the limitation of a circuit component comprising: a support structure disposed between a first surface of a first structure and the first surface of a second structure such that the support structure acts as a fulcrum about which the first structure can be elastically deformed, causing at least a portion of the first surface of the first structure to move relative to the first surface of the second structure.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
